I'm a skilled director at obtaining authentic on-camera testimonies in both interview and performance settings. I'm incredibly personable and manage talent, crew and client relationships with ease. I work professionally with high profile personnel and organizations. I excel at coordinating productions domestically and internationally. I pride myself in being a thorough and detail-oriented producer. I'm great at scheduling, managing and maintaining a budget. I have a strong understanding of post-production workflows and am an excellent storyteller. I am a capable shooter on Canon SLR cameras for both photography and video. I can capture quality B-roll and interviews in a "run & gun" type setting. I'm an expert in Adobe Premiere Pro, and have an intermediate knowledge of Adobe After Effects, Photoshop & Lightroom. I'm a fast learner and do my best to keep up with current technologies.
